TAYLOR, LAW & Co. LTD.,
ANCHOR WORKS,
ADAMS STREET,
BIRMINGHAM.

Dear Sirs,

We have pleasure in sending you to-day a copy of our NEW CATALOGUE.

Very great care has been taken in compiling this list so as to bring it right up to date. A great many of the prices have been considerably reduced so as to meet both Home and Foreign competition, and we believe we can safely say that this list is now the most complete of any in this trade.

To meet the wishes of many of our customers, we have altered our discount to 50%.

We should be glad if you would acknowledge receipt of this Catalogue, and if you would kindly return us our old list, we should esteem it a favour.

We are,

Yours respectfully,

TAYLOR, LAW & Co., Ltd.

THE NEW "TALA" TIP-UP BATH.

1

The New "Tala" Tip-up Bath.

Registered No. S23852.

For Villas, Artisan Dwellings, or Bungalows.

These Baths are very strongly made of best Steel Sheets, and are well Japanned with three coats of hard drying Enamel. They are coloured Sea Green or Grained Oak and White inside. They are easily fixed, and all that is required is sufficient $1\frac{1}{4}$ in. pipe to take water to outside drain. The connection supplied with the Bath is simply screwed to the pipe and the joint is made.

When folded up and not in use the space occupied is $24 \times 24 \times 66$ in., and they can be fixed in scullery, kitchen, or bathroom.

Price complete with Axles and Bearings and 14 in. of Metallic Flexible Tubing and Unions.

Size—5 ft. long, $23\frac{1}{2}$ in. wide, $16\frac{1}{2}$ in. deep, all inside measure.

THE NEW FAIRY WAFER & TIMBALE IRONS.

REGISTERED.

No. 430.

Fairy Wafer Irons
AND WHAT THEY MAKE.

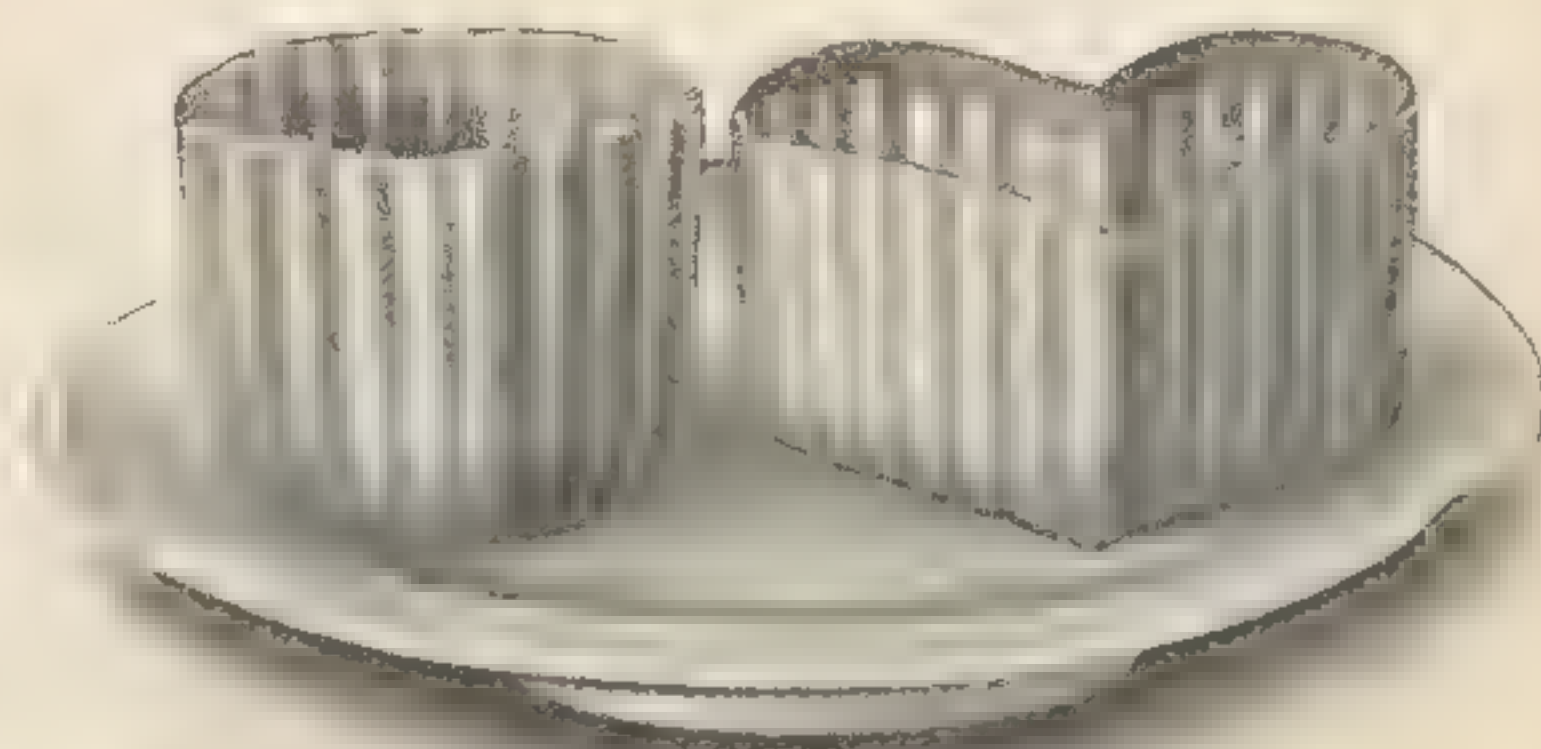

No. 430 1.

No. 431.

Fairy Timbale or Patty Irons
AND WHAT THEY MAKE.

No 431-2.

These irons are made of special castings, light in construction and quickly heated. The handles are tinned, always cool, and will not twist in the hand. The points under the bottom of the moulds keep the pastry from the bottom of the pan when left to fry.

With the Fairy Irons the most dainty wafer and pastry cups can be made. The process is so simple that any lady can make either wafers or cups first time she tries.

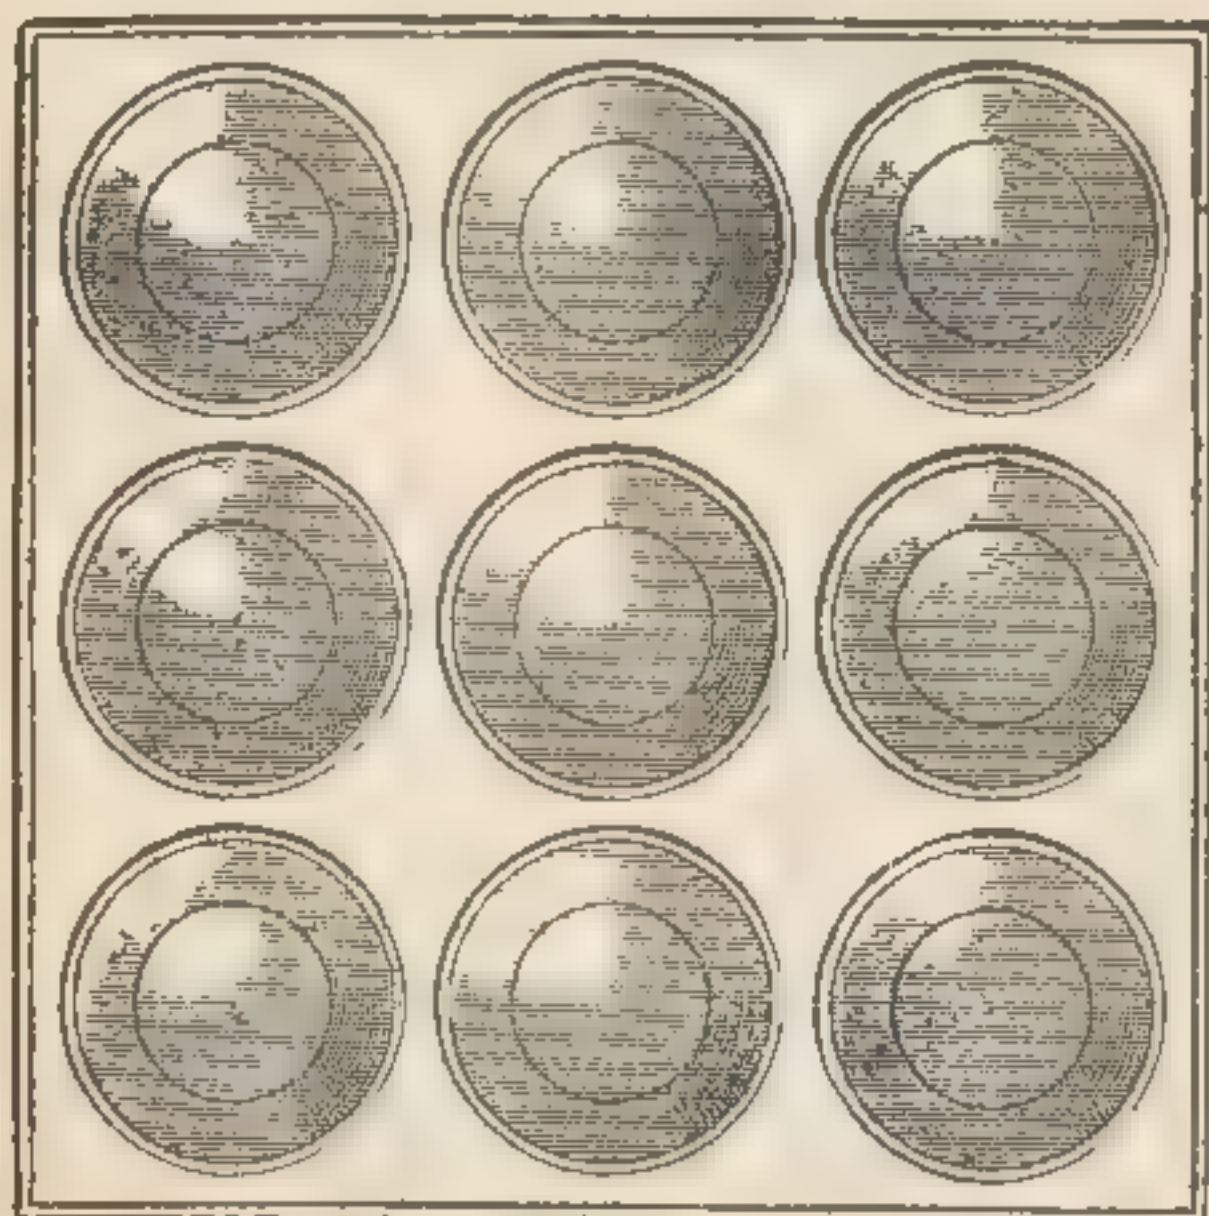

In 20 minutes 40 dainty wafers or cups, succulent morsels, inviting to the eye and delicious to the taste, can be made with 6d. worth of material.
